NEW LEATHER MAINTENANCE

NOTHING FEELS LIKE REAL LEATHER

Keep it in shape

Leather is a natural product that ages and creates a beautiful patina in the process. To make sure that it keeps its flexibility and softness, it needs to be nourished and protected.

Although most of our products are well protected with a water and dirt repellent coating, we strongly advise to give them some extra support with our Leather Balm or Leather Spray.

Both products are made of natural ingredients such as natural pine resin and natural oils.

The Leather Balm can be used for deep nourishing, where the Leather Spray is a fast solution for overall protection.

For nourishing and deep cleaning of leather, we have developed a Leather Soap. This soap is also handmade in Belgium of natural oils and artisanal glycerine and has a pleasant orange scent.

For complete protection, the maintenance set can be ordered, including the Leather Balm, together with a large horsehair brush and a soft organic cotton cloth.

Apply the balm with the brush, allow time to penetrate and buff with the cotton cloth.

NEW DENIM BRUT

ROUGH SOPHISTICATION

All our favourite aprons in a new version – in Denim Brut.

Both Five Pockets aprons as well as the BBQ style and Suspender aprons are now also available in a rough denim called Brut. This unwashed denim is made to last for years to come and is produced sustainably. This is what 'blue jeans' really looks like.

FIVE POCKETS SLIM FIT & COMFORT FIT

The placement of the five pockets refers heavily to jeans designs: two smaller ones in the front and two large, comfortable ones on the side.

Including the famous small watch pocket with embroidered crown logo.

Both the Slim Fit Apron as the Comfort fit in Denim brut are available as a never out of stock item and are here to stay!

BBQ STYLE APRON The BBQ-style apron in Denim brut is the ultimate bold and edgy. The roughness of the Brut fabric is a perfect match with the leather straps and carabiner hooks, this is meant to be!

SUSPENDER STYLE APRON

The sophistication of the red suspenders and the deep blue colour of the Denim brut make this apron not only super comfortable but also super cool, for professionals and hobby cooks alike.
