

The background of the entire image is a light pink color. It features several mangoes and slices of mango. In the top left, there is a large, curved slice of mango with a grid of small cubes cut into it. In the top right, there is a whole, ripe mango with a red and orange skin. In the bottom left, there is another whole, ripe mango. In the bottom right, there is a large, circular slice of mango, also with a grid of small cubes cut into it. The text 'COOKUT' is centered in the upper half of the image, with a small leaf icon above the 'O'. Below it, the text 'MANGO LIMITED EDITION' is centered in a smaller font.

Technology designed for perfect cooking

Thanks to the materials used and its exclusive design, the Incredible Cocotte maintains **a uniform temperature**, ideal for slow cooking. You can also use it to brown food over a high heat or deglaze meats.

Self-basting of meats

Studs under the lid ensure that there is **continuous automatic self-basting** inside by promoting condensation under the lid. This means you get tender meats and dishes with exceptional flavours.

CRISPIZ
Bake your pizzas like in a traditional brick oven.

With Crispiz, bake an incredible, deliciously crispy pizza in just 5 minutes. You'll love it!

How is this possible?

Crispiz is the only pizza stone made from a refractory material with numerous holes. The stone stores heat for baking similar to a traditional brick oven. Additionally, the holes allow hot air to cook the dough directly beneath the pizza and remove moisture — no more unpleasant “undercooked, soggy center”!

Material: cordierite

We are already 260k+!

1 product produced = 1 bee reintroduced

Cookut is committed to saving bees. The role of bees is essential in the pollination of most fruit and vegetable crops. Our diet directly depends on it. The number of bees is collapsing worldwide mainly due to pesticides, monocultures and pollution.

To fight against their disappearance, Cookut participates to the bee protection program **"Car elles butinent"** and sponsors beekeepers by financing hives throughout France. These actions directly fight against the disappearance of bees in our countryside.
