Welcome to our

Tradition meets innovation and passion meets expert knowledge:
At GRAEF CUTTING WORLD we showcase our entire range of expertise.
Over 100 years of inventive spirit and innovative strength have gone into
our slicers.

They are handmade in Germany and synonymous with the highest quality,
timeless design and well thought-out functionality. Our CUTTING WORLD
also stands for durability, enjoyment, freshness, health, creativity
and sustainability.

Our CUTTING WORLD offers ideal solutions for every area of application and
is now also complemented by precise knife sharpeners, high-quality
kitchen knife, versatile electric knife and powerful mixers.

WHY TO BUY A SLICER? -

AGAINST FOOD WASTE! FOR A SUSTAINABLE LIFESTYLE!

**11 Mio.
TONS**
OF FOOD WASTE
PER YEAR IN
GERMANY¹

78 KG
PER CAPITA
AND YEAR¹

59%
(6,5 Mio. Tons)
ARE CAUSED
BY PRIVATE
HOUSEHOLDS¹

35% FRUITS & VEGETABLES
13% BAKED GOODS
9% DAIRY PRODUCTS
4% MEAT, COLD
CUTS, FISH¹

86%

of German households throw
away food that would have
still been usable if consumed
in time¹.

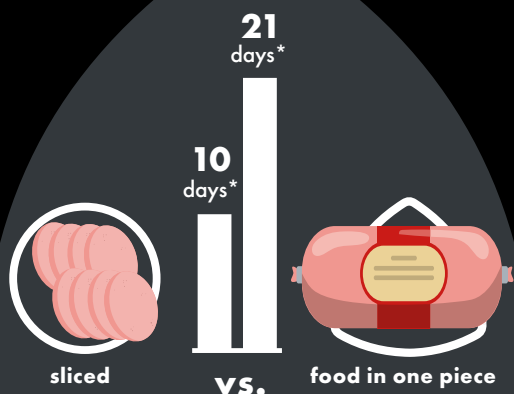

Tips to reduce food waste

- **Buy the right quantities:** With a slicer, food can be precisely portioned according to need, helping to avoid leftovers.
- **Avoid plastic packaging:** By slicing (unpackaged) whole foods, you can reduce plastic packaging and avoid waste.
- **Slice fresh:** The slicer allows you to slice food directly before preparation, keeping it fresher for longer and reducing the need to discard.
- **Cook more at home:** The slicer makes it easier to cook fresh meals, reducing food waste.
- **Buy seasonal & local foods:** This helps avoid unnecessary transportation. .
- **Be more conscious with food:** Using the slicer sensitizes you to the value of food and encourages more mindful consumption with less waste.

Slicing fresh food from one piece can reduce your plastic waste by up to 20%!²

Regularly using a slicer can reduce your food waste by up to 40%.²

* Example: ham sausage

The GRAEF Shelf Life Study proves: Food in one piece lasts longer - up to 2 weeks longer compared to ready-cut food³.

SLICER

STYLE

- Minimalist design, maximum performance – fits into any kitchen and delivers best performance!
- Powerful and energy-efficient at the same time
- Freshness that lasts - flavour that counts:
Cut food straight from the piece

Keyfacts:

- Design: Stand or glass base plate
- Colour: Black (S10002 | S12002),
Silver (S10005 | S12005)
- Cutting length: 225 mm
- Operation: On | off switch (continuous operation)
- Power: Energy-saving motor (45–170 watts)
- Cutting thickness: 0 –20 mm
- Blade: Ø 17 cm stainless steel serrated blade
- Dimensions (H x W x D):
Stand: 240 x 230 x 325 mm
Glass base plate: 260 x 240 x 343 mm
- Scope of delivery: Instruction manual, plastic tray, food holder

S10022 | S10025 with stand, extra smooth blade

S12022 | S12025 with glass base plate, extra smooth blade

**HANDMADE
IN GERMANY**

SKS300

- Space-saving all-metal machine in a clean silver look, „Made in Germany“
- Stainless steel serrated blade, Ø 170 mm - also cuts through hard crusts
- Stepless slicing thickness adjustment, 0 - 20 mm

Keyfacts:

- Design: Glass base plate (S32000), 15° inclined (S32100)
- Colour: Silver
- Cutting length: 225 mm
- Operation: On | off switch (continuous operation)
- Power: Energy-saving motor (45–170 watts)
- Cutting thickness: 0 – 20 mm
- Dimensions (H x W x D): S32000: 252 x 240 x 343 mm, S32100: 260 x 255 x 343 mm
- Scope of delivery: Instruction manual, plastic tray, combi attachment (food holder & MiniSlice in one)

ESSENCE

- Uncompromising in performance and function
- Elegant design, compact dimensions
- The safest slicer in its class

Keyfacts:

- Type: Glass base plate
- Colour: Silver
- Operation: Pulse and continuous modes
- Power: Energy-saving motor (45–170 watts)
- Cutting thickness: 0 –20 mm
- Dimensions (H x W x D): 250 x 240 x 343 mm
- Scope of delivery: Instruction manual, plastic tray, food holder

SLICER

MASTER M20F

- Your sous-chef for maximum precision in the sophisticated hobby kitchen
- Innovative fine cut function up to 2 mm for the thinnest of slices
- Ultra-sharp 17 cm gastronomy blade

Keyfacts:

- Design: Self-supporting with glass base plate
- Colour: Silver
- Cutting length: 225 mm
- Operation: Momentary and continuous switches
- Cutting thickness: 0 - 20 mm
- Dimensions (H x W x D): 270 x 313 x 405 mm
- Scope of delivery: Instruction manual, food holder, stainless steel tray

MASTER M95F

- Your sous-chef for maximum precision in the sophisticated hobby kitchen
- Innovative fine cut function up to 2 mm for the thinnest of slices
- Ultra-sharp 17 cm gastronomy blade

Keyfacts:

- Design: Self-supporting with glass base plate, tiltable 30°
- Colour: Iron mica
- Cutting length: 225 mm
- Operation: Momentary and continuous switches
- Cutting thickness: 0 - 20 mm
- Dimensions (H x W x D): 270 x 313 x 405 mm
- Scope of delivery: Instruction manual, food holder, stainless steel tray, blade removal

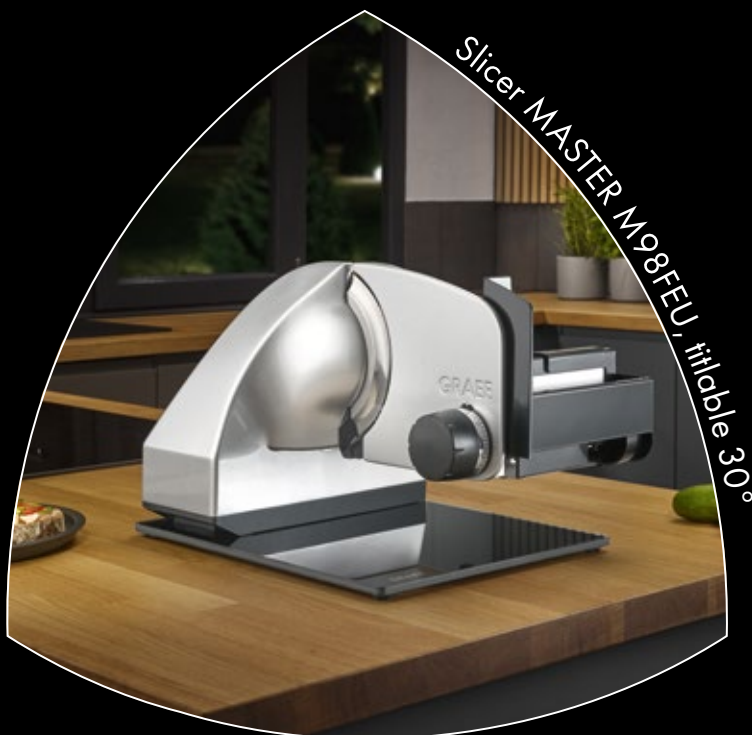

**HANDMADE
IN GERMANY**

MASTER M98F

- Your sous-chef for maximum precision in the sophisticated hobby kitchen
- Innovative fine cut function up to 2 mm for the thinnest of slices
- Ultra-sharp 17 cm gastronomy blade

Keyfacts:

- Design: Self-supporting with glass base plate, tiltable 30°
- Colour: Silver
- Cutting length: 225 mm
- Operation: Momentary and continuous switches
- Cutting thickness: 0 - 20 mm
- Dimensions (H x W x D): 270 x 313 x 405 mm
- Scope of delivery: Instruction manual, food holder, stainless steel tray

ICONIC²⁵

- Limited edition, hand-picked and 'Handmade in Germany' from the Arnsberg-based slicer manufactory GRAEF
- Innovative fine cut function up to 2 mm for the thinnest of slices
- Resistant CERA³ coating from the professional sector guarantees smooth cutting and easy cleaning

Keyfacts:

- Design: Self-supporting with glass base plate, tiltable 30°
- Colour: Matt silver
- Cutting length: 225 mm
- Operation: Momentary and continuous switches
- Cutting thickness: 0 - 20 mm
- Dimensions (H x W x D): 270 x 313 x 405 mm
- Scope of delivery: Instruction manual, combi-attachment (food holder & MiniSlice in one), stainless steel tray, blade removal

Resistant CERA³ coating from the professional sector guarantees smooth cutting and easy cleaning

SLICER

MYtiny

- Ultra-compact dimensions - perfect for small kitchens or when traveling
- Foldable all-metal slicer with extremely safe operation
- Quickly ready for use & stowable - no assembly of components necessary

Keyfacts:

- Design: Foldable
- Colour: Silver (MT1000), red (MT1003), black (MT1006)
- Cutting length: 277 mm
- Operation: Momentary and continuous switch
- Cutting thickness: 0 – 15 mm
- Dimensions (H x W x D): 182 x 234 x 345 mm
- Scope of delivery: Instruction manual, food holder

With extra smooth blade

Silver (MT1200), red (MT1203), black (MT1206)

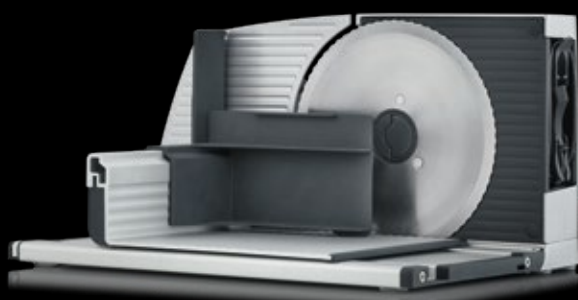

MYtiny
FITS INTO
EVERY LIFE.

Don't grow up – stay tiny!

GRAEF's MYtiny fits into every life: a full-fledged all-purpose slicer with ultra-compact dimensions and a convenient folding function. Brilliantly small, brilliantly simple!

Think your kitchen is too small to share gourmet moments with your friends? Think again! With GRAEF's MYtiny, you can enjoy your favorite thin deli cuts wherever you want.

Our latest cutting-edge innovation unites over 100 years of engineering expertise and creativity in one product: super portable and extremely versatile – for delicious moments, any place, any time.

HANDMADE
IN GERMANY

ULITMATE

- Stylish fine slicer in a full-metal design with unique lighting concept
- LED safety control - brings even more safety to the kitchen
- 0 – 2-millimetre fine cutting range - for even more precise 0.25 millimetre cuts
- Ultra-sharp 17 cm gastronomy blade

Keyfacts:

- Design: Self-supporting construction
- Colour: Silver (S72010), red (S72013), black (S72016)
- Cutting length: 230 mm
- Operation: Carriage switch (momentary | continuous function)
- Cutting thickness: 0 - 20 mm
- Dimensions (H x W x D): 250 x 315 x 370 mm
- Scope of delivery: Stainless steel tray, blade sharpener, blade removal device, combi attachment PRO (food holder & MiniSlice in one), instruction manual

MANUALE

- Can be used anywhere, simple & intuitive in use
- A true Graef classic in retro design, handmade in Germany
- Simply turn the crank and slice fresh food effortlessly

Keyfacts:

- Design: Four suction rubber feet
- Colour: Matt black (H92), red (H93), silver (H9)
- Cutting length: 150 mm
- Operation: Manual
- Cutting thickness: 0 - 15 mm
- Dimensions (H x W x D): 375 x 365 x 245 mm
- Scope of delivery: Instruction manual

KITCHEN KNIFE | TOY SLICER

**HANDMADE
IN GERMANY**

Kitchen knife

- Genuine Solingen blade quality with long cutting durability
- Robust stainless steel knife - hand ground & blue-peened - for highest sharpness and corrosion resistance
- Easy cleaning thanks to seamless processing

Keyfacts:

- Blade steel: 1.4116, stainless steel
- Blade thickness: 2.3 - 2.5 mm
- Vegetable knife KN5051 with 9 cm blade
- Santoku knife KN5052 with 13 cm blade
- Chef's knife KN5053 with 20 cm blade
- Bread knife KN5054 with 20 cm serrated blade
- Knife set KN5150 - Vegetable knife, Santoku knife, Chef's knife

Toy slicer

- Learning to cut while playing
- Clever motor skills training
- Realistic operation
- High-quality wooden toy
- Slices can be cut off slice by slice
- Incl. 30-piece slicing set with Velcro connection

KNIFE SHARPENER

GRAEF offers electric knife sharpeners for European knives with a 20° angle and Asian knives with a 15° angle. The knife sharpeners have 2 stages (grinding and polishing), such as the CX110 diamond knife sharpener, or 3 stages (building up, grinding, and polishing), such as the CC120 diamond knife sharpener, depending on the device. Most knife sharpeners use diamond grinding discs, which sharpen the knife edges quickly but gently. The elastomer angle guide makes it very easy to maintain the exact angle of the knife. The knife is simply pulled through.

Simple manual knife sharpeners, such as the PRONTO or PICCOLO knife sharpeners, also expand the range.

Sharpening features (depending on the model)

CrissCross

The special diamond grinding discs of this GRAEF knife sharpener create a burr-free edge with a micro-serrated surface. This provides the knife with an extra bite for effortless cutting, for example through tomatoes.

Dizor

GRAEF knife sharpeners with Dizor technology enhance cutting performance by creating two distinct bevel angles. This forms a arch-shaped, ultra-sharp edge that stays sharp longer than a conventional V-edge.

Trizor

Three consecutive sharpening stages create a triple-beveled edge. The bevels are set at different angles, forming a supportive, arch-shaped knife with a triple edge structure inspired by a Gothic arch.

Edgeselect

Adjust the edge to your task by combining sharpening and honing stages. Stages 1, 2 and 3 create an ultra-sharp edge for delicate foods and fine cutting. Stages 1 and 3 deliver a fine edge with slight bite, ideal for meat and fibrous ingredients.

XV Technology

Converts a traditional 20° edge into a more precise, sharper high-performance edge with a 15° angle. The 15° angle is typical for Asian knives such as Santoku and Nakiri and is now also common in many European knives.

MANUAL KNIFE SHARPENER

Piccolo

- Optimal, reliable sharpening angles for 20° edges
- Always sharp knives & consistent results, with no prior knowledge needed
- Easy operation and fast sharpening – anywhere

Keyfacts:

- Colour: Grey | black
- Edge structure: 2 facets
- Sharpening material: Wolfram-carbide
- Operation: Manual
- Knife guide: Fixed angle guide
- Dimensions (H x W x D): 43 x 40 x 98 mm

Pronto

- Optimal, reliable sharpening angles for 20° edges
- Always sharp knife & consistent results, with no prior knowledge needed
- Easy operation and fast sharpening – anywhere

Keyfacts:

- Colour: Grey | black
- Edge structure: 2 facets
- Sharpening material: Diamond-coated
- Operation: manual
- Knife guide: Fixed angle guide
- Dimensions (H x W x D): 70 x 53 x 98 mm

KNIFE SHARPENER

CC82

- Optimal, reliable sharpening angles for 20° edges
- Always ultra-sharp knives & consistent results, with no prior knowledge needed
- Simple and safe operation thanks to fixed angle guide

Keyfacts:

- Colour: Black
- Edge structure: 2 facets
- Sharpening material: Diamond
- Operation: hybrid
- Angle guide: Fixed angle guide 20°
- Dimensions (H x W x D): 250 x 315 x 370 mm

CC120

- Always ultra-sharp knives & consistent results, with no prior knowledge needed
- Simple and safe operation thanks to elastomer angle guide
- Damaged knife can be repaired using the pre-sharpening stage

Keyfacts:

- Colour: White
- Edge structure: 3 facets,
- Sharpening material: Diamond coated and ceramic
- Operation: Electric
- Angle guide: Elastomer angle guide, 20°
- Dimensions (H x W x D): 110 x 112 x 250 mm

KNIFE SHARPENER

CC150

- 2in1: Perfect, reliable sharpening angles for 15° and 20° edges
- Always ultra-sharp knives & consistent results, with no prior knowledge needed
- Simple and safe operation thanks to elastomer angle guide

Keyfacts:

- Colour: white
- Edge structure: 2 facets
- Sharpening material: Diamond and ceramic
- Operation: electric
- Angle guide: Elastomer angle guide, 15° and 20°
- Dimensions (H x W x D): 110 x 112 x 250 mm

SG2000

- Perfect, reliable sharpening angles for 20° edges in professional use
- Always ultra-sharp knives & consistent results, with no prior knowledge needed
- Simple and safe operation thanks to elastomer angle guide
- Robust, removable sharpening module

Keyfacts:

- Colour: black
- Edge structure: 3 facets,
- Sharpening material: Diamond coated and ceramic
- Operation: Electric
- Knife guide: Elastomer angle guide, 20°
- Dimensions (H x W x D): 130x 130 x 305 mm

CX110

- Perfect, reliable sharpening angles for 15° edges
- Always ultra-sharp knives & consistent results, with no prior knowledge needed
- Simple and safe operation thanks to elastomer angle guide

Keyfacts:

- Colour: black
- Edge structure: 2 facets
- Sharpening material: Diamond coated and ceramic
- Operation: Electric
- Angle guide: Elastomer angle guide, 15°
- Dimensions (H x W x D): 110 x 118 x 215 mm

CX125

- Perfect, reliable sharpening angles for 15° edges
- Always ultra-sharp knives & consistent results, with no prior knowledge needed
- Convert 20° knife into an even sharper 15° knife

Keyfacts:

- Colour: black
- Edge structure: 3 facets
- Sharpening material: Diamond coated and ceramic
- Operation: Electric
- Angle guide: Elastomer angle guide, 15°
- Dimensions (H x W x D): 110 x 118 x 25 mm

KNIFE SHARPENER

SG520

- Perfect, reliable sharpening angles for 20° edges
- Always ultra-sharp knives & consistent results, with no prior knowledge needed
- Simple and safe operation thanks to elastomer angle guide

Keyfacts:

- Colour: Quarz grey
- Edge structure: 2 facets,
- Sharpening material: Diamond coated and Ceramic
- Operation: Electric
- Knife guide: Elastomer angle guide, 20°
- Dimensions (H x W x D): 125 x 225 x 120 mm

SG530

- Perfect, reliable sharpening angles for 20° edges
- Always ultra-sharp knives & consistent results, with no prior knowledge needed
- Damaged knife can be repaired using the pre-sharpening stage

Keyfacts:

- Colour: Quarz grey
- Edge structure: 3 facets,
- Sharpening material: Diamond coated and Ceramic
- Operation: Electric
- Knife guide: Elastomer angle guide, 20°
- Dimensions (H x W x D): 125 x 265 x 120 mm

ELECTRIC KNIFE | CHOPPER

EK501 | EK508

- Smooth-running electric knife for fast and easy cutting, even of frozen foods
- Vertical positioning – for clean operation
- Finger protection allows easy blade removal

Keyfacts:

- Colour: White (EK501) | taupe (EK508)
- Housing material: Plastic
- Dimensions (H x W x D): 123 x 67 x 445 mm
- Scope of delivery: Stainless steel serrated blade, stainless steel frozen blade, instruction manual

CH501 | CH502

- Practical chopper for chopping and blending food, also suitable for preparing baby food
- Powerful 500 watt motor
- Simple one-hand pulse operation

Keyfacts:

- Colour: White (CH501) | black (CH502)
- Housing material: Plastic | glass
- Blade: Four-bladed stainless steel blade
- Dimensions (H x B x T): 215x 190 x 155 mm
- Scope of delivery: Instruction manual

MEAT GRINDER

FW500

- Quality material (stainless steel | aluminium) - ensures more longevity
- Versatile attachments - Kebbe and Co. bring the orient and creativity into the kitchen.
- 400-watt motor with up to 2,500 watts blocking capacity and a high conveying capacity (throughput: 1,800 g | min - 2,500 g | min)

Keyfacts:

- Colour: Silver
- Function: Overload protection
- Power: 400 Watt
- Cutting discs: fine 3 mm, medium 5 mm, coarse 8 mm
- Dimensions (H x B x T): 304 x 153 x 355 mm
- Scope of delivery: Instruction manual, sausage filling funnel, kebbe attachment, shortbread attachment, Pusher

FW706

- Professional results thanks to pre-cutter
- Powerful 800 watt motor with up to 2000 watt blocking power
- High output (throughput rate: 1,500 g | min - 2,600 g | min)

Keyfacts:

- Colour: Iron mica
- Function: Overload protection
- Power: 800 Watt
- Cutting discs: fine 3 mm, medium 5 mm, coarse 8 mm
- Dimensions (H x B x T): 409 x 196 x 303 mm
- Scope of delivery: Sausage filling funnel, kebbe attachment, shortbread attachment, feed tray, pusher, instruction manual

HAND BLENDER

HB501 | HB502

- Comfortable hand blender with high-quality plastic housing and stainless steel blender unit
- Powerful 800 watt motor with high speed, up to 13,000 rpm
- Blender unit with 4 stainless steel blades and anti-splash function

Keyfacts:

- Colour: White (HB501), black (HB502)
- Function: Speed control, variably adjustable via Clic-Clic function, additional turbo function
- Power: 800 Watt
- Dimensions (H x B x T): 410 x 50 x 50 mm
- Scope of delivery: 700ml BPA-free plastic measuring jug, whisk, chopper, instruction manual

HB602

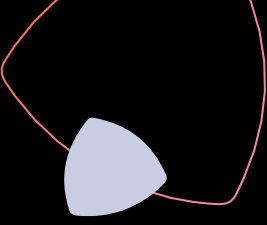

- Versatile hand blender with high-quality stainless steel blender unit
- Powerful 1,200 watt DC motor with high speed of up to 15,000 rpm
- Blender unit with 4 stainless steel blades and anti-splash guard

Keyfacts:

- Colour: Black
- Function: 2 speed settings with speed control, additional variable speed control with Clic-Clic function
- Power: 1200 Watt
- Dimensions (H x B x T): 400 x 63 x 63 mm
- Scope of delivery: Instruction manual

Welcome to our

The smell of freshly baked bread? The bite of a crispy crust? The butter melting on a slightly warm bread slice ... Bread tastes best fresh. For all those who like to knead, stir and bake, GRAEF provides the perfect companions for the home bakery. For bread, cakes, tarts and everything else too. There are no limits to your imagination in the GRAEF baking world.

STAND MIXER

MYestro

- Quiet, powerful & durable
- Whisper-quiet, very powerful professional motor
- For large quantities (up to 3 kg of dough)
- Smooth, stable and steadfast
- Planetary mixer
- 5-year-warranty
- Maximum performance
- Innovative lighting

Keyfacts:

- Colour: Iron mica
- Function: Overload protection
- Power: 800 Watt DC Motor
- Noise level: ≤ 60 dB (measuring distance: 1 m)
- Speed min. | max.: 45 | 220 (rpm)
- Dimensions (H x B x T): 304 x 153 x 355 mm
- Scope of delivery: Instruction manual, 7 litre stainless steel bowl, balloon whisk, dough hook, flat beater

Adapter for Kenwood®* stand mixer accessories

- The stand mixer MYestro becomes multifunctional and covers a wide range of everyday kitchen tasks!
- Benefit from the uncompromising performance of the GRAEF MYestro stand mixer while being able to expand its range of functions with your favourite accessories.
- With the help of this GRAEF adapter, compatible Kenwood®* stand mixer accessories of the slow speed connection can now also be used for the GRAEF stand mixer MYestro (KM7016)!

* The Kenwood® accessories that have not been designed, developed or manufactured by Graef, • Kenwood® accessories are accessories designed, developed and manufactured by a third party, the De'Longhi Group, • De'Longhi Group has not carried out any checks on the compatibility of the accessories, • No company of the De'Longhi Group has any connection under company law with Gebr. Graef GmbH & Co. KG.)

BREAD MAKER | ICE MACHINE

BA806

- Developed with professionals: 34 varied, trendy bread & dough recipes, also for pre-doughs or jams
- Freshly baked, wonderfully aromatic bread (500 | 750 g) at the touch of a button
- Baking also possible without dough hook

Keyfacts:

- Colour: Iron mica
- Function: Touch-Display, 60 minutes keep warm function
- Programms: 34 + DIY programm
- Power: 520 Watt
- Dimensions (H x B x T): 322 x 219 x 350 mm
- Scope of delivery: Tool for removing the dough hook, dosing spoon, 250 ml measuring cup, container for liquids, instruction manual

IM706

- Cream Control - regulates the ice cream consistency in three stages (soft ice cream to firm)
- Yoghurt programme - for homemade yoghurt
- Automatic cooling function - cools immediately after preparation
- Efficient compressor cooling

Keyfacts:

- Colour: iron mica
- Capacity: 2 L
- Cooling range: -18°C to -35°C
- Power: 150 Watt
- Dimensions (H x B x T): 315 x 272 x 365 mm
- Scope of delivery: Ice cream spoon, measuring cup, recipe book, instruction manual

KITCHEN SCALE | HAND MIXER

KS202

- Fits under any slicer - makes healthy cooking even easier
- LCD display with sensor button operation - combines easy readability and operation
- Liquid indicator and tare weighing function - ensure convenient weighing

Keyfacts:

- Colour: Black
- Weight units: g | ml | oz | lb:oz | fl.oz
- Weighing function: up to 5 kg
- Dimensions (H x B x T): 19 x 148 x 203 mm
- Scope of delivery: Kitchen scale, battery (CR2032), instruction manual

HM508

- Powerful motor for extra-long operation even for firm dough
- Extra Power thanks to turbo-button
- Also for deep bowls: extra-long dough hooks & whisks

Keyfacts:

- Colour: Taupe
- Settings: 7 speed settings + turbo button
- Power: 600 Watt
- Noise level: ≤ 75 dB (measuring distance: 1 m)
- Speed min. | max.: 300 | 1080 (rpm)
- Dimensions (H x B x T): 157 x 85 x 209 mm
- Scope of delivery: Instruction manual, 2 extra-long dough hooks and 4 extra-long stirring hooks to also dip into deeper bowls

WAFFLE MAKER | CRISPY CONE MAKER

WA80

- Practical waffle maker with heart-shaped baking mould and unique GRAEF pattern
- High-quality, thermally insulated stainless steel housing
- Electronic temperature monitoring for consistent results

Keyfacts:

- Colour: Stainless steel matt-finished
- Settings: Control panel with 6 baking settings
- Waffle mould: Ø approx. 18 cm
- Power: 850 Watt
- Coating: Non-stick coating
- Dimensions (H x B x T): 85 x 205 x 270 mm
- Scope of delivery: Instruction manual

HE80

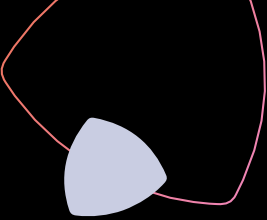

- Compact crispy cone maker for wafer-thin cone waffles (thickness: approx. 0.8 mm) with a unique GRAEF pattern
- Electronic temperature monitoring for consistent results
- Includes cone-shaped beech wood cone roller (235 x 45 mm) for easy preparation of ice cream cones

Keyfacts:

- Colour: Stainless steel matt-finished
- Settings: Control panel with 6 baking settings
- Waffle mould: Ø approx. 15 cm
- Power: 850 Watt
- Coating: Non-stick coating
- Dimensions (H x B x T): 85 x 205 x 270 mm
- Scope of delivery: Beech wood cone roller, instruction manual

Welcome to our

Coffee preparation is a science. The right grind, the ideal bean, a finely adjusted grinder - this is the only way to create a perfectly balanced, harmonious espresso with the finest crema.

Noble GRAEF espresso machines with state-of-the-art themoblock technology, individual adjustment options and the highest quality materials for discerning connoisseurs, coffee grinders for every degree of grinding or filter coffee machines for classic coffee lovers - in the GRAEF coffee world, everyone will find their own individual moment of pleasure.

The high-quality range is rounded off by our Handmade-Coffee-Collection for coffee purists, elegant milk frothers and an extensive range of accessories for the home barista.

COFFEE GRINDER

CM102

- One-touch operation - enables exact control
- Blade with two wings - is ideal for dry ingredients such as coffee beans & co.
- Blade with four wings - chops in an instant wet foodstuffs or conjures up pesto

Keyfacts:

- Colour: Black
- Capacity: 85 g
- Power: 200 Watt
- Dimensions (H x B x T): 210 x 120 x 120 mm
- Scope of delivery: Instruction manual, two stainless steel containers

CM252

- Individual grind setting from fine to coarse in 17 steps
- Aroma-preserving disc grinder
- Adjustable grinding quantity

Keyfacts:

- Colour: Black
- Capacity: 80 g coffee beans
- Power: 130 Watt DC Motor
- Coffee quantity: 2 to 12 cups
- Dimensions (H x B x T): 255 x 130 x 130 mm
- Scope of delivery: Instruction manual, bean container, coffee grounds container, 80 g coffee bean container

CM702

- Solid plastic housing with removable base plate
- Aroma-preserving, removable stainless steel conical grinder
- 24 grind settings for maximum flexibility in preparation

Keyfacts:

- Colour: Black
- Capacity: 250 g coffee beans
- Power: 128 Watt
- Dimensions (H x B x T): 375 x 155 x 260 mm
- Scope of delivery: Instruction manual, group handle holder large and small, coffee grounds container with dust cover, 250 g coffee bean container, cleaning brush, filling funnel for group handle large and small, filler neck

Coffee grinder CM702

generated with AI

EliteGrindX

- Premium coffee grinder with metal housing in state-of-the-art color selection
- Improved anti-static ensures residue-free, clean grinding and fresh ground coffee at all times
- Additional 75 g single-dose bean container for daily fresh bean quantities
- Slow-running stainless steel conical grinder with 40 grind settings

Keyfacts:

- Colour: Black-matt (CM8002), pistaccio (CM8007), dipped sand (CM8011)
- Capacity: 350 g | 75 g coffee beans
- Power: 128 Watt
- Dimensions (H x B x T): 397 x 135 x 230 mm
- Scope of delivery: Single-dose bean container for approx. 75 g beans, bean container for approx. 350 g beans, portafilter holder large and small, coffee grounds container with dust cover, cleaning brush, filling funnel for portafilter large and small

COFFEE GRINDER

MADE
IN ITALY

CM1012 | CM1116

- On-demand coffee grinder with 50 mm hardened steel disc grinder, precise dosing and minimal dead space
- Variable timer ensures repeat accuracy for each grinding cycle
- Particularly quiet operation at high grinding performance (60dB)

Additional feature CM1116

- Touch display with integrated timer ensures exact settings and repeat accuracy for every grinding process

Keyfacts:

- Colour: Black (CM1012), iron mica (CM1116)
- System: ACE system - prevents clumping & static charging of ground coffee
- Power: 310 Watt
- Grinding capacity: 220 g coffee beans, 1 - 1.5 g | sec.
- Dimensions (H x B x T): 340 x 127 x 180 mm
- Scope of delivery: Portafilter holder, 220 g coffee bean container, support pad for portafilter holder, instruction manual

Colour options with touch display

- red (CM1103)
- yellow (CM1104)
- metallic white (CM1111)
- metallic green (CM1118)

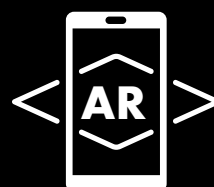

ESPRESSO MACHINE

Dicianova

- Extremely slim design with a housing width of only 19 cm
- Single thermoblock with actively heated brewing group for fast readiness for use and energy-saving operation
- Expert settings for the home barista

Keyfacts:

- Colour: Stainless steel
- Temperature control: PID temperature control adjustable in ± 1 °C steps
- Programms: 4 pre-infusion programs & 7 steam programs
- Capacity: 1.6 L
- Power: 1471 - 1750 Watt
- Dimensions (H x B x T): 170 x 190 x 455 mm
- Scope of delivery: Cleaning set (blind sieve & cleaning pin), 600 ml milk jug, tamper, single-walled filter baskets for 1 cup & 2 cups, portafilter with 2 spouts

SCAN & EXPERIENCE THE DICIANOVA
IN YOUR OWN SPACE

Batessa

- Compact design - modern stainless steel housing in elegant matt black
- Dual thermoblock system with actively heated brew group for fast heat-up & energy efficiency
- Simultaneous preparation of espresso and milk foam

Keyfacts:

- Colour: Black matt
- Temperature control: PID temperature control adjustable in ± 1 °C steps
- Programms: 4 pre-infusion programs & 7 steam programs, freely programmable volumetrics for 1 or 2 cups
- Capacity: 2.5 L
- Pumps: Espresso up to 16 bar, steam up to 6 bar
- Power: 2850 Watt
- Dimensions (H x B x T): 428 x 290 x 433 mm
- Scope of delivery: Cleaning set (blind sieve & cleaning pin), 600 ml milk jug, tamper, single-walled filter baskets for 1 cup & 2 cups, portafilter with 2 spouts

ESPRESSO MACHINE

Estessa

- Compact design - modern stainless steel housing in elegant design
- Adjustable pressure profiles allow individual adaptation of the extraction process
- Simultaneous preparation of espresso and milk foam

Keyfacts:

- Colour: Stainless steel
- Pressure profile: Customizable for full control over extraction
- Profiles: 3 user profiles for lever operation or 1-|2-cup buttons
- Temperature control: PID temperature control adjustable in ± 1 °C steps
- Programms: 4 pre-infusion programs & 7 steam programs, freely programmable volumetrics for 1 or 2 cups
- Capacity: 2.5 L
- Pumps: espresso up to 16 bar, steam up to 6 bar
- Power: 2850 Watt
- Dimensions (H x B x T): 428 x 290 x 433 mm
- Scope of delivery: Cleaning set (blind sieve & cleaning pin), 600ml milk jug, tamper, single-walled filter baskets for 1 cup & 2 cups, portafilter with 2 spouts

Colour options

- red (ES1503)
- yellow (ES1504)
- metallic white (ES1511)
- metallic green (ES1518)

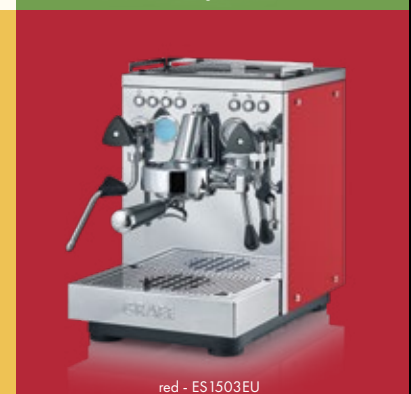

metallic white - ES1511EU

metallic green - ES1518EU

yellow - ES1504EU

red - ES1503EU

Estessa „limited edition“

- Compact design - modern stainless steel housing in elegant design
- Adjustable pressure profiles allow individual adaptation of the extraction process
- Simultaneous preparation of espresso and milk foam

Keyfacts:

- Colour: Stainless steel brushed black
- Pressure profile: Customizable for full control over extraction
- Profiles: 3 user profiles for lever operation or 1-|2-cup buttons
- Temperature control: PID temperature control adjustable in ± 1 °C steps
- Programms: 4 pre-infusion programs & 7 steam programs, freely programmable volumetrics for 1 or 2 cups
- Capacity: 2.5 L
- Pumps: espresso up to 16 bar, steam up to 6 bar
- Power: 2850 Watt
- Dimensions (H x B x T): 428 x 290 x 433 mm
- Scope of delivery: Cleaning set (blind sieve & cleaning pin), 600ml milk jug, tamper, single-walled filter baskets for 1 cup & 2 cups, portafilter with 2 spouts

MILK FROTHER

MS202

- Stirring, foaming & mixing without a cable - maximum flexibility, maximum versatility
- Glass milk jug for pure enjoyment to watch
- Easy operation with just one button and 4 functions

Keyfacts:

- Colour: black
- Function: Manual
- Battery: Long-lasting 1.200 mAh lithium-ion battery and up to 60 minutes of runtime
- Power: 5,5 Watt
- Dimensions (H x B x T): 270 x 145 x 94 mm
- Scope of delivery: Glass milk jug, storage lid, support pad, blender attachment, charging cable, instruction manual

MS402

- Stylish, modern relief design
- Simple operation for hot and cold milk foam enjoyment
- Can be cleaned under running water

Keyfacts:

- Colour: Black-matt
- Function: Touch-Button
- Capacity: Froth up to 115 ml of milk (produces approx. 230 ml of milk foam), heats up to 240 ml of milk
- Power: 400 Watt
- Dimensions (H x B x T): 196 x 106 x 106 mm
- Scope of delivery: Base station, whisk, instruction manual

MS802

- Finest, creamy milk foam in barista quality
- Glass milk jug for pure enjoyment to watch
- Simple operation thanks to touch display with 5 programmes

Keyfacts:

- Colour: Black-matt
- Function: Touch-Display
- Capacity: Frothing of 150 - 250 ml milk (produces up to 500 ml milk froth), Heats up to 400 ml of milk
- Power: 600 Watt
- Dimensions (H x B x T): 215 x 160 x 105 mm
- Scope of delivery: Base station, whisk, instruction manual

MS902

- Perfect results thanks to induction technology
- Glass milk jug for pure enjoyment to watch
- Extremely easy operation thanks to touch display with adjustable temperature and 6 creative programs

Keyfacts:

- Colour: Black-matt
- Function: Touch-Display
- Capacity: Frothing of 100 - 200 ml milk (produces approx. 400 ml milk foam), heat 150 - 400 ml of milk or hot chocolate
- Power: 500 Watt
- Dimensions (H x B x T): 220 x 163 x 173 mm
- Scope of delivery: Base station, instruction manual

MANUAL COFFEE PREPARATION

MCM12

- Precise, manual coffee grinder with hand crank
- For the finest coffee specialties prepared by hand
- Grind coffee by hand in just a few steps - without electricity

Keyfacts:

- Colour: Black-matt
- Function: Manual
- Grinding: 48 adjustments
- Capacity: approx. 25 g of coffee beans
- Dimensions (H x B x T): 200 x 54 x 140 mm
- Scope of delivery: Cleaning brush, instruction manual

MMS12

- Perfect milk froth in a few simple steps - without electricity
- Max. filling quantity approx. 200 ml milk (for approx. 400 ml milk froth): corresponds to the preparation of milk froth for 2 cappuccini or a latte macchiato
- Transparent glass container for visible frothing results

Keyfacts:

- Colour: Black-matt
- Function: Manual
- Dimensions (H x B x T): 200 x 75 x 75 mm
- Scope of delivery: 3x replacement fabric filters, instruction manual

MFP12

- Stylish French press jug for pure coffee enjoyment
- Filling capacity 350 ml - corresponds to about 2 small cups of coffee
- Transparent, removable glass container

Keyfacts:

- Colour: Black matt
- Function: Manual
- Capacity: 350 ml
- Dimensions (H x B x T): 180 x 130 x 73 mm
- Scope of delivery: 1 x coffee spoon, 3x replacement fabric filters

MFP22

- Stylish French press jug for pure coffee enjoyment
- Filling capacity 800 ml - corresponds to about 5 - 6 small cups of coffee
- Transparent, removable glass container

Keyfacts:

- Colour: Black matt
- Function: Manual
- Capacity: 800 ml
- Dimensions (H x B x T): 173 x 160 x 102 mm
- Scope of delivery: 1 x coffee spoon, 3x replacement fabric filters

POUR-OVER KETTLE

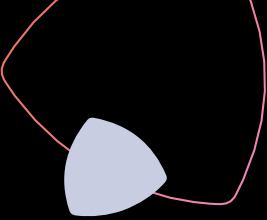

GK502

- Perfect brewing of coffee or tea thanks to gooseneck spout
- Precisely adjustable temperatures from 40 °C to 100 °C
- Maximum control thanks to brewing timer and keep-warm function

Keyfacts:

- Colour: Black-matt
- Function: LED-Display, Control panel
- Temperature: Adjustable in °C | °F
- Capacity: 0.9 L
- Power: 1200 Watt
- Dimensions (H x B x T): 185 x 270 x 200 mm
- Scope of delivery: Cleaning brush, instruction manual

Welcome to our

With our products from the helpers world, we want to provide you with appliances that assist you throughout the day and make your kitchen work much easier. That is why this product segment excels by GRAEF's typical combination of sophisticated technology and elegant design.

When it comes to colour and design, the appliances in the helpers world fit seamlessly into the GRAEF range. Due to the harmonious design, they can be combined perfectly with products from GRAEF's cutting or coffee world. After all, it's not just what you eat that matters - it's also what you cook.

DEHYDRATOR

DA506

- GRAEF dehydrators for healthy, natural and sustainable snacks, crisps, toppings, nuts, herbs or even pet treats
- Dehydrating surface: 0.65 m²
- Dry Balance technology - for even drying of different foods

Keyfacts:

- Colour: Silver
- Function: On- | Off Switch
- Slots: 6 slots for 6 large plastic dehydrating trays (BPA-free)
- Temperature: Adjustable from 30 °C to 70 °C
- Timer: 40 h
- Power: 630 Watt
- Dimensions (H x B x T): 225 x 330 x 493 mm
- Scope of delivery: 6 plastic drying trays, 1 silicone mat, recipe booklet, instruction manual

DA510

- GRAEF dehydrators for healthy, natural and sustainable snacks, crisps, toppings, nuts, herbs or even pet treats
- Dehydrating surface: 1.08 m²
- Dry Balance technology - for even drying of different foods

Keyfacts:

- Colour: Silver
- Function: On- | Off Switch
- Slots: 10 slots for 10 large plastic dehydrating trays (BPA-free)
- Temperature: Adjustable from 30 °C to 70 °C
- Timer: 40 h
- Power: 630 Watt
- Dimensions (H x B x T): 350 x 330 x 493 mm
- Scope of delivery: 10 plastic drying trays, 1 silicone mat, recipe booklet, instruction manual

ELECTRIC KETTLE

WK300

- Glass body made from heat resistant DURAN® Glass for pure taste
- Water only comes into contact with stainless steel or glass
- Easy cleaning

Keyfacts:

- Colour: Transparent
- Power: 2000 Watt
- Capacity: 1 L
- Dimensions (H x B x T): 224 x 131 x 230 mm
- Scope of delivery: Base station, lid, instruction manual

WK350

- Glass body made from heat resistant DURAN® Glass for pure taste
- Water only comes into contact with stainless steel or glass
- Perfect for tea thanks to temperature setting, keep warm function and tea strainer

Keyfacts:

- Colour: Transparent
- Function: Touch-Display
- Power: 2000 Watt
- Capacity: 1 L
- Dimensions (H x B x T): 230 x 204 x 230 mm
- Scope of delivery: Base station, lid with lowerable tea strainer, lid, instruction manual

ELECTRIC KETTLE

WK401 | WK402

- Double-walled stainless steel kettle with plastic | stainless steel housing
- Washable stainless steel scale filter
- Lift-off switch and automatic switch-off

Keyfacts:

- Colour: White (WK401) | black (WK402)
- Power: 2015 Watt
- Capacity: 1 L
- Dimensions (H x B x T): 233 x 135 x 218 mm
- Scope of delivery: Base station, instruction manual

WK61 | WK62

- Double-walled stainless steel kettle with plastic | stainless steel housing
- Washable stainless steel scale filter
- Lift-off switch and automatic switch-off

Keyfacts:

- Colour: White (WK61) | black (WK62)
- Power: 2015 Watt
- Capacity: 1,5 L
- Dimensions (H x B x T): 250 x 147 x 225 mm
- Scope of delivery: Base station, instruction manual

WK600

- Single-walled stainless steel kettle
- Washable stainless steel scale filter
- Lift-off switch and automatic switch-off

Keyfacts:

- Colour: Stainless steel
- Power: 2015 Watt
- Capacity: 1,5 L
- Dimensions (H x B x T): 250 x 147 x 225 mm
- Scope of delivery: Base station, instruction manual

WK900 | WK901 | WK902

- Safe and robust – double-walled stainless steel, child lock and safety features
- Precise temperature control – ideal for tea and filter coffee thanks to the temperature sensor
- Easy to clean – washable limescale filter and clearly visible water level indicator

Keyfacts:

- Colour: Stainless steel (WK900), white (WK901), black (WK902)
- Function: Buttons (70°C, 80°C, manual brew button and boiling water)
- Power: 2015Watt
- Capacity: 1.2 L
- Dimensions (H x B x T): 250 x 147 x 225 mm
- Scope of delivery: Base station, instruction manual

TOASTER

TO61 | TO62

- 2-slice toaster with thermally insulated plastic housing
- Browning level control with six settings
- Bread slice centring

Keyfacts:

- Colour: White (TO61) | black (TO62)
- Power: 888 Watt
- Bun warmer: Integrated
- Function: Stop, Defrost
- Dimensions (H x B x T): 195 x 180 x 273 mm
- Scope of delivery: Instruction manual

TO100 | TO101 | TO102

- Toasts 4 slices at the same time
- Soft-Lift-Function
- Suitable for several toasts or long slices of bread
- Long slot toaster with thermally insulated aluminium-/stainless steel housing

Keyfacts:

- Colour: Silver (TO100), white (TO101), black (TO102)
- Power: 1380 Watt
- Bun attachment: Separate
- Function: Stop, Defrost
- Dimensions (H x B x T): 255 x 163 x 385 mm
- Scope of delivery: Instruction manual, separate bun attachment
